

Double garden potting table build instructions

Before you commence the assembly process, we recommend that you read these instructions thoroughly beforehand to familiarise yourself with the assembly process and to also check that you have the correct components. If for any reason you need assistance, you can find our contact details on the top of the page of these instructions.

We highly recommend that any assembly is carried out on a flat, level surface if possible and that you use another person to assist you if necessary **for your convenience all guide holes are pre-drilled.**

Package contents

- Worktop
- 4x leg frames
- 6x shelves
- Fixings
- 4x support braces

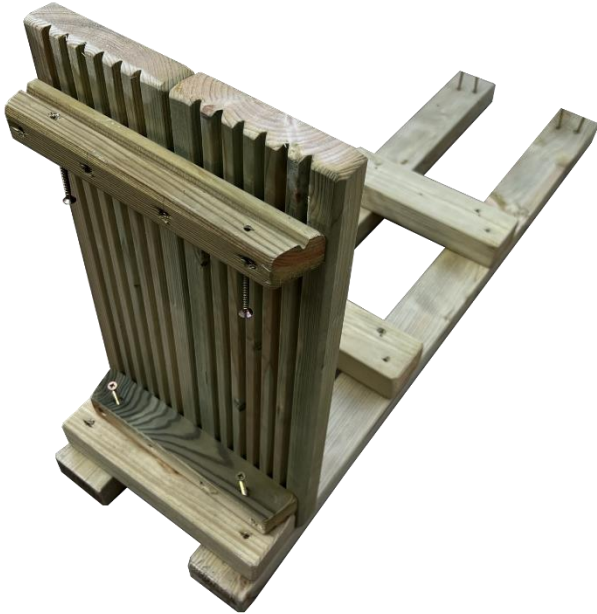

Tools required

Electric screwdriver (No.2 Pozi bit) or

Screwdriver

Step 1

Assemble the furniture by selecting a leg frame, placing the shelf on the support strut with proper alignment, and securing it firmly using the provided wood screws through the predrilled pilot holes.

Step 2

Repeat the same step for the other two shelf attachment.

Step 3

Next, take the second leg frame and securely attach it to the other side of the shelves following the same procedure. Ensure proper alignment by utilizing the pre-drilled pilot holes on both the leg frame and the shelves, and fasten the components firmly using the wood screws provided. This will ensure a cohesive and stable assembly of the entire structure. Repeat steps 1 to 3 to assemble the second leg.

Step 4

Place the worktop with its surface facing downwards. Carefully position the previously assembled leg frames into the worktop frame, ensuring a snug fit in the corners without leaving any gaps. Once aligned, proceed to secure the legs to the worktop frame by using 8x wood screws per leg. Make sure to tighten the screws firmly to achieve a sturdy and durable connection between the worktop and the leg frames.

Step 5

Following the leg's secure attachment, proceed to place 2x support braces as indicated in the provided illustration. Two support braces should be positioned on each leg. Once in place, secure the support braces firmly using the provided wood screws. Ensure the screws are tightened adequately to establish strong support and reinforce the overall structure.

Repeat steps 4 to 5 to complete assembling the rest of the potting table.

Your Double Garden potting table is now completed!

We hope that you found your product quick and easy to assemble but if not and you require further assistance or have any questions you can contact us via the details above.
