

Wooden Log Store (1 cubic meter capacity) (W-119cm, H-118cm, D-71cm)

Before you commence the assembly process, we recommend that you read these instructions thoroughly beforehand to familiarise yourself with the assembly process and to also check that you have the correct components. If for any reason you need assistance, you can find our contact details on the top of page of these instructions.

We highly recommend that any assembly is carried out on a flat, level surface if possible and that you use another person to assist you if necessary for your convenience all guide holes are pre-drilled.

Please note: If this product is delivered to you by a Parcelforce, it is splitted into 2 compartments. If you have received only 1 package, the second package will be delivered to you the following working day.

You can check our **YouTube channel** for assembly video.

Package contents

2x Side panels
1x Back panel
1x Base
1x Roof
14x 65mm screws
2x Spacer blocks (after use dispose of them)

Tools required

Electric screwdriver (No.2 Pozi bit) or
Screwdriver

Step 1

Stand the Right-hand side panel as shown in the picture.

Step 2

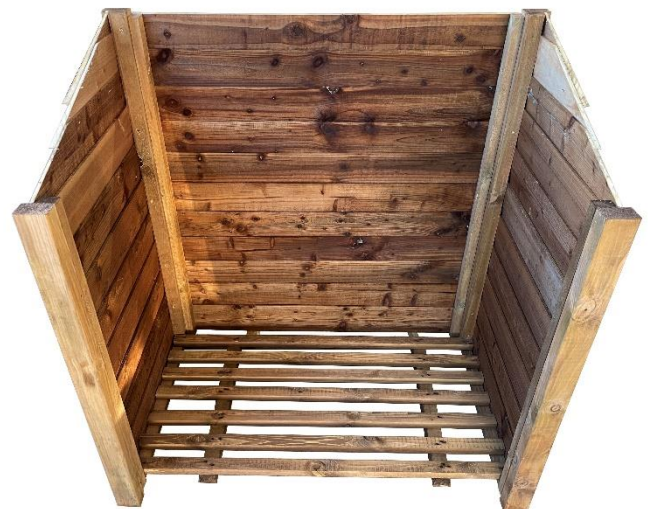

Now stand the back panel on the provided battens as shown and using the 65mm screws, attach the batten on the back panel to the post of the side panel, ensuring that the batten remains vertically aligned to the post.

Step 3

***Repeat this step for the other side**

Step 4

Place the base lattice inside the log store. Pull the sides in and secure using the supplied 65mm screws.

Step 5

Place the roof on top the log store line it up so that the batten on the edge of the roof is pulled up to front vertical post. Secure in place with the 65mm screws.

Your log store is now completed!

We hope that you found your product quick and easy to assemble but if not and you require further assistance or have any questions you can contact us via details above.
