

## **Opifex Craftsman/Jewellers Workbench**

Before you commence the assembly process, we recommend that you read these instructions thoroughly beforehand to familiarise yourself with the assembly process and to also check that you have the correct components. If for any reason you need assistance, you can find our contact details on the top of page of these instructions.

We highly recommend that any assembly is carried out on a flat, level surface if possible and that you use another person to assist you if necessary **for your convenience all guide holes are pre-drilled.**

### **Package contents**

**1x Tabletop**

**2x Legs**

**1x Bench Peg and hand supports.**

**1x Bundle with fixings and necessary panels**

**Bundle with drawers**

**1x Bundle of Tool holder panels (If bought one)**

### **Tools required**

**Spanner or battery-operated drill**

### Step 1

Ensure that you have all the correct parts as listed on the front page of these instructions, including any fixings.

### Step 2

Take two of the provided panels and attach them just as shown in the picture. Ensure them via provided pilot holes using confirmat screws.

### Step 3

Now take 2x of the side panels and place just as shown in the picture that the rails would match each other. Ensure it with the confirmat screws.

### Step 4

After ensuring the side panels, attach one of the support panels just as shown in the picture and secure it with the provided confirmat screws.

### Step 5

Take another provided support panel and place it just as shown in the picture, securing it with the confirmat screws.

### Step 6

Repeat step 5 to secure the support panel, which is shown in the picture.

### Step 7

Place the routed plank in the position shown in the picture and ensure it with the confirmat screws.

### Step 8

Now rotate the workbench as shown in the picture with side panels looking up and prepare your workbench legs to be attached.

### Step 9

Before fixing the legs, please make sure that you are fixing workbench legs in the correct places please see numbers on the legs and match it with the numbers on the panels. After sorting the legs out, secure them with the confirmat screws, as shown in the picture.

### Step 10

After securing the parts in previous steps, please place the backboard on the back of the workbench and knock up all the provided nails. Now flip the workbench on its legs and prepare to place the workbench top.

### Step 11

### Step 12

### Step 13

Underneath the workbench, you will find 3x holes which need to be secured with the provided screws.

### Step 14

At this point, your workbench should look like this. Please continue to further steps to finish assembling the drawers.

### Step 15

Take two of the provided drawer panels and place them in the same position.

### Step 15.1

Attach the drawers back panel that the cut out for the board would be facing the same direction. And now secure it with the confirmat screws.

Trading address: Unit 11, Cattle Dyke, Wisbech, England, PE1 34NR

### Step 15.2

Slide the drawers baseboard as shown in the picture.

### Step 15.3

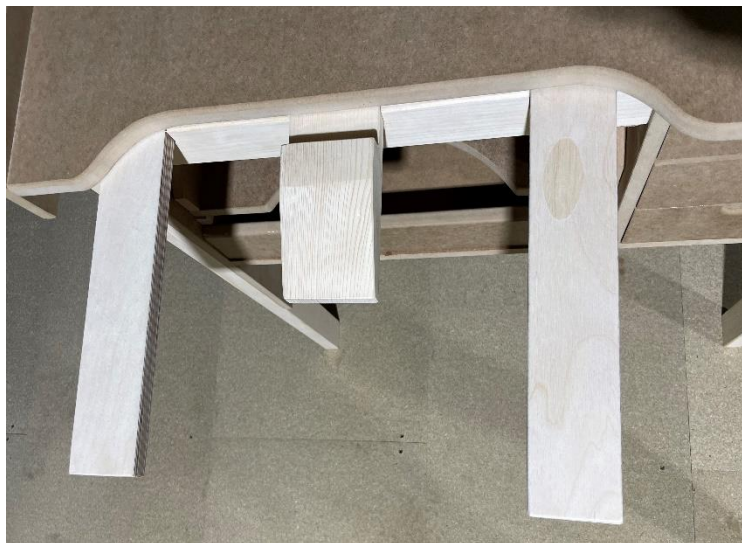

Now place the drawers front panel and secure it with the cam locks from each side. Repeat steps 15 to 15.3 to finish assembling the drawers.

### Step 16

After assembling all the drawers, safely place them into the workbench.

### Step 17

Don't forget to slide in the hand supports and the wooden pegboard to the provided holes. If you have a tool holder shelf, please continue to step 18.

### Step 18

Assemble tool holder panel parts just as shown in the picture and secure it with the confirmat screws.

### Step 19

Attach the holder on the side of the workbench as shown in the picture and adjust it to your required height. After finding the best place for your tool holder, secure it with the provided screws.
