

## **Open front mobile animal field shelter assembly**

Before you commence the assembly process, we recommend that you read these instructions thoroughly beforehand to familiarise yourself with the assembly process and to also check that you have the correct components. If for any reason you need assistance, you can find our contact details at the top of the page of these instructions.

We highly recommend that any assembly is carried out on a flat, level surface if possible and that you use another person to assist you if necessary **for your convenience all guide holes are pre-drilled.**

**Ensure that you have all the correct parts listed on the front page of these instructions, including any fixings.**

[Press here for the assembly video](#)

### **Package contents**

- 4x slides
- 2x Side panels
- 1x Back panel
- 1x Front panel
- 5x Rafters
- Roof panels
- 4x Feather edge covers
- Necessary screws and fixings

### **Tools required**

Electric screwdriver (No.2 Pozi bit) or  
Screwdriver.

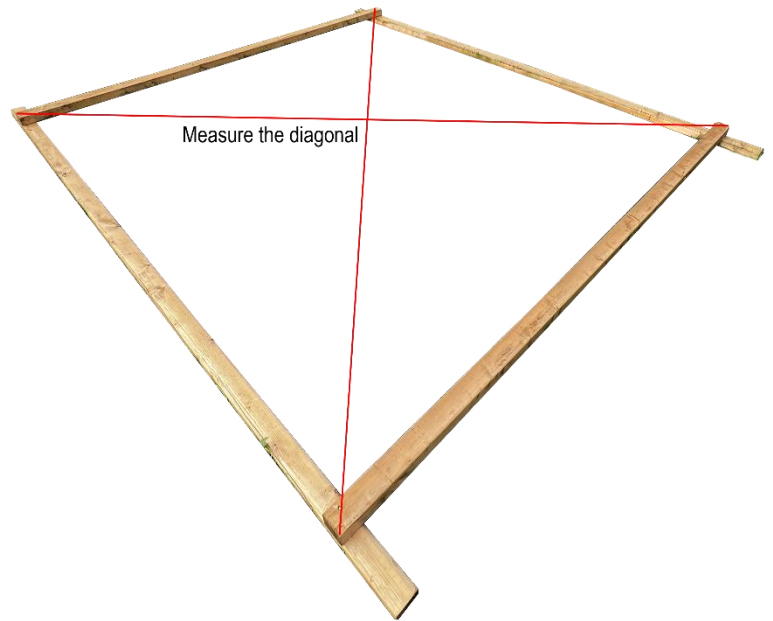

### Step 1

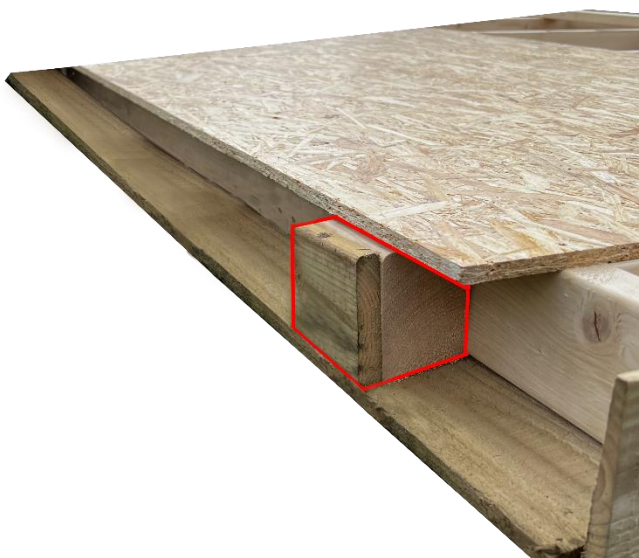

Take two of the smaller slides and place them on two of the longer slides as shown in the picture, before securing it with the coach screw or the metal corner make sure that the shorter slides are properly aligned with the marked line.

### Step 2

After securing all 4x corners measure both diagonals they must be the same length to continue your assembly.

### Step 3

Before continuing to the main corpus assembly please check the bottom of each board. There you will find protection cubes that save panels from damage while in transit. You need to knock them down before starting further steps of the assembly.

### Step 4

Front and rear corpus panels will have kickboards that need to be screwed out before placing the panels on the slides so that the remaining predrilled pilot holes would be visible.

### Step 5

Fit in the back panel between the slides on the longer side.

### Step 6

Now take 6x80mm wood screws and secure the back panel to the slides as shown in the picture.

### Step 7

Take the side panel and secure it to the back panel with the 4x80mm wood screws via predrilled pilot holes.

### Step 8

Please make sure before securing any of the panels that everything is perfectly aligned.

### Step 11

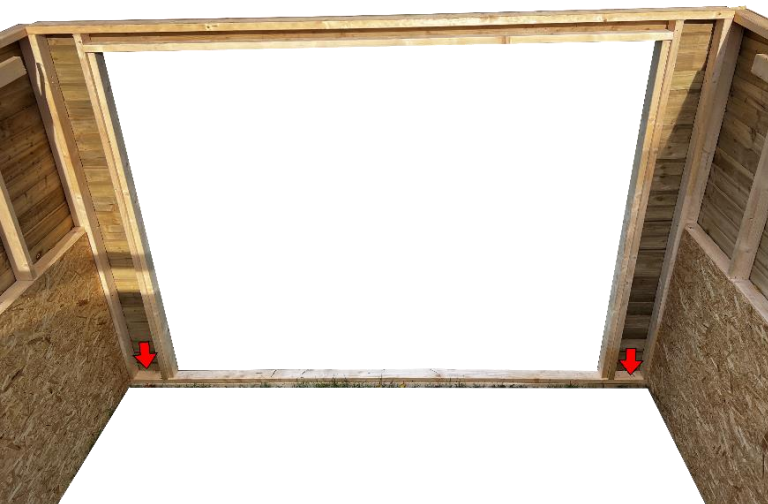

Place the front panel in the same manner and secure it with the 4x80mm wood screws making sure that everything is aligned.

### Step 12

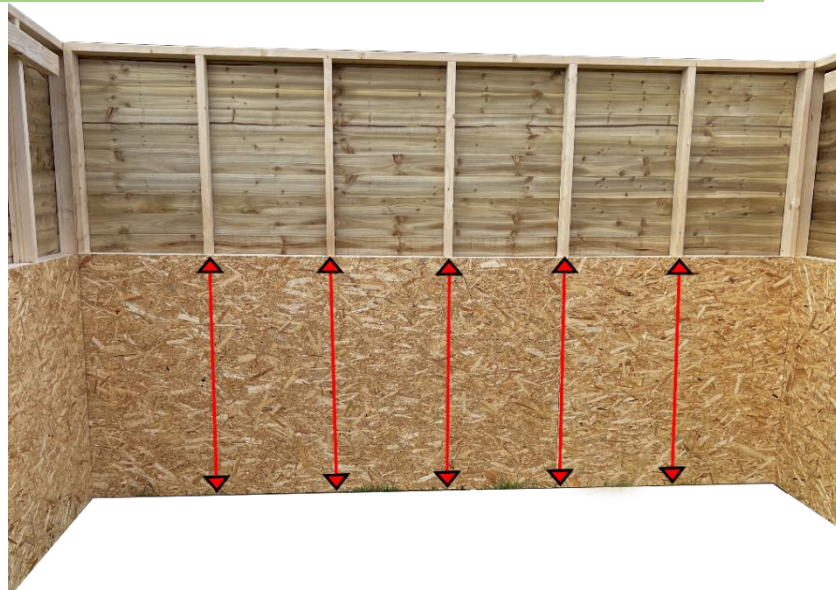

Take the remaining side panel and secure it from both sides with 8x80mm wood screws.

### Step 13

After the main corpus is secured, you can screw the front panel to the slides with the 2x80mm wood screws.

### Step 14

After making sure that all 4x corpus panels are safe and secured with the necessary wood screws you can go and put back the kickboards to their places securing each of the rows (Marked in the picture) with the 25mm wood screws.

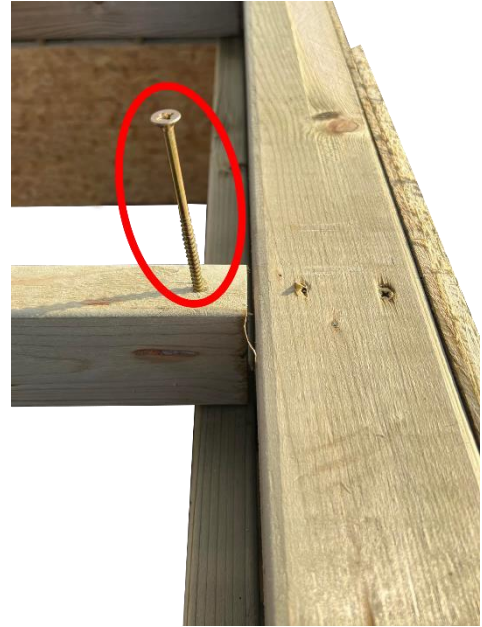

### Step 15

Now place 5x of the rafters in the position as shown making sure that each of them is equally aligned and has same gap between one another. (Use the provided spacer 53cm)

### Step 16

Secure each rafter end with 1x80mm wood screw via predrilled pilot hole as shown in the picture. (2x 80mm wood screws per rafter.)

### Step 17

Place the roof on top of your assembly leave 5cm from front back and the sticking corner so that everything would spread equally.

### Step 18

Keep putting on the rest of the roof panels making sure that the last roof wave would go underneath the new roof wave so that they could connect and be screwed per one screw. Please use the provided screws to secure the roof to the assembly.

### Step 19

After securing the roof panels take the provided feather edge boards and place them as shown in the picture to cover the roof side waves. Secure one of the feather edge boards with 16x40mm wood screws.

### Step 20

Place the second half of the cover aligning it with the first one. Again, secure it with the 16x40mm wood screws. Complete step 20 on the other side of the shelter as well.

## Open front mobile animal field shelter is now completed!

We hope that you found your product quick and easy to assemble but if not and you require further assistance or have any questions you can contact us via the details above.
