Now, using 2 of the supplied coach screws and the predrilled holes, secure the bench A-frame to the fixing batten on the seat and repeat same move on the other side.

Step 3

For a 3ft or 4ft set, take one of the bench braces (rectangular) and align it between the two A-frames.

Step 4

Secure into place using 2 coach screws at either end as shown.

Step 5

For a 5ft to 8ft set, place a shorter brace aligned centrally on the seat as shown and affix to the bench with a coach screw.

Step 6

Ensure that the brace is lined up centrally on the bench and attach it to the A-frame with a coach screw.

Step 7

Add the remaining braces to both seat assemblies
