

Shoe/Log Storage

Before you commence the assembly process, we recommend that you read these instructions thoroughly beforehand to familiarise yourself with the assembly process and to also check that you have the correct components. If for any reason you need assistance, you can find our contact details on the top of page of these instructions.

We highly recommend that any assembly is carried out on a flat, level surface if possible and that you use another person to assist you if necessary.

Wooden Outdoor Storage Box

Package contents

1x Top
2x Side Panels
1x End panel
2x Base supports
1x Slatted base
Bundle with fixings

Tools required

Electric screwdriver (No.2 Pozi bit) or
Screwdriver

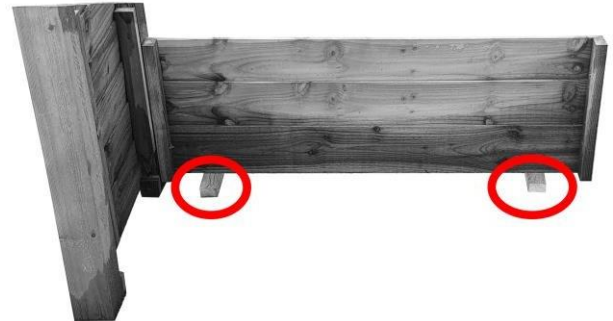

Step 1

Stand the left-hand end panel upright on a flat, level surface. Arrange two spacer blocks on the ground, adjacent to the panel.

Step 1

Now place a back panel on the blocks, at 90° to the end panel, aligning the 2 panels ready for fixing.

Step 2

Now place a back panel on the blocks, at 90° to the end panel, aligning the 2 panels ready for fixing. Using the 65mm screws provided, attach the batten on the back panel to the post of the end panel, ensuring that the batten remains vertically aligned to the post.

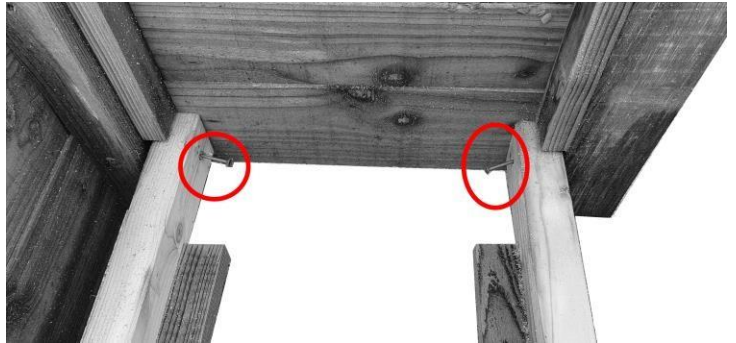

Step 3

Repeat step 2, for the other side storage. At this stage you log store should look like this.

Step 4

Now, place two base supports as shown in the picture.

Step 4.1

Secure base with provided screws, via pre-drilled holes. (guide holes will be pre-drilled on the angle) and place slatted base section.

Step 5

Check that the front batten ends sit flush with the posts as shown. Now attach the roof to each end panel post with provided screws at the front and back, repeat this step for both sides

Your storage bench is now completed!
